Portfolio of Projects

Worked as a Program coordinator / Instructor in a Computer Training institute where I was involved in training students about the concept of Object Oriented Language, Database Management System, HTML, e-Commerce, Core Java and SQL in depth. Also worked for same institute in developing a software application and maintaining the data.

Worked in an organization for a period of six months, with a team, where the main focus was on implementation of Cisco routers, Microsoft Windows 2000 Server, MS SQL Server, Oracle 8i Server, Client Server Connectivity and maintenance of the whole Computer network.
